# Preparedness Support and Mutual Assistance

## Objectives

- Increase the level of protection and resilience to cyber threats, by assisting Member States in their efforts to improve the preparedness for cyber threats and incidents by providing them with knowledge and expertise.
- Support mutual assistance between Member States for both preparedness and incident response actions.

## Scope

- Support for testing of essential entities operating critical infrastructure for potential vulnerabilities
- Support for threat assessment and risk assessment.
- Risk monitoring service

*Proposals must implement a mechanism for **financial support to third parties**. Proposals that do not foresee this will be ineligible.*

Grants for Financial Support — 100% funding rate, EUR 35M, duration up to 48 months, indicative budget: EUR 3-7M per project

# Coordination Between the Cybersecurity Civilian and Defence Spheres

## Objective

- Enhance exchange and coordination between the cybersecurity civilian and defence spheres. This should in particular foster synergies between cybersecurity actions in Horizon Europe, Digital Europe and defence related actions carried out by the Union through its bodies and programmes, such as the European Defence Agency and the European Defence Fund.

## Scope

- Organise activities that bring foster exchange with regards to cybersecurity technologies that have relevance in both civilian and defence context: meetings, workshops and collaborative activities between stakeholders of the civil and defence communities, addressing all stakeholders (academic, SMEs, industry, public authorities, etc.).

Coordination and Support Actions — 100% funding rate, EUR 3M, duration up to 24 months, indicative budget: up to EUR 3M per project

# Standardisation in the Area of Cybersecurity

## Objective

- Support further standardisation in the area of cybersecurity, notably in view of the implementation of the proposed Regulation on the Cyber Resilience Act (CRA) , in particular with a view to improving the awareness and engage stakeholders in such standardisation work.

## Scope

- Ensure wide stakeholder participation in standardisation activities in the area of cybersecurity, and in particular in relation to development of harmonized standards facilitating the implementation of the Cyber Resilience Act. This can be in the form of meetings, workshops and collaborative activities, involving the private as well as the public sector.

Coordination and Support Actions — 100% funding rate, EUR 3M, 36mos, Indicative budget: up to EUR 3M per project

*In order to facilitate the implementation of the CRA, harmonised standards would be developed, which, if followed, would trigger the presumption of conformity with the CRA essential cybersecurity requirements to which they correspond. This will be complementary to actions by the National Coordination Centres, which will play a key role in reducing negative cross-border spillovers and subsequent costs to society to mitigate the risks associated with nonsecure products.*

# Support for Implementation of EU Legislation on Cybersecurity and National Cybersecurity Strategies (I)

## Objectives

- Development of trust and confidence between Member States.
- Better security and notification processes and means for Operators of Essential Services and for digital service providers in the EU.
- Better reporting of cyber-attacks to law enforcement authorities in line with the Directive on attacks against information systems.
- More alignment of Member States' implementations of NIS2
- Support cybersecurity certification in line with the Cybersecurity Act.
- ...

## Scope

- Implementation, validation, piloting and deployment of technologies...
- Collaboration, communication, awareness-raising...
- Twinning schemes
- Robustness and resilience building measures
- ....

Simple Grants — 50% funding rate, EUR 30M, 36mos, Indicative budget: EUR 1-5M per project
