EDIH Network Summit 2024

26 – 27 November

The Egg Brussels

Session 5 - Networking the Networks

November 27, 2024

COORDINATEF ecosystem

Boosting European AI innovation, together.

CoordinaTEF places a strong emphasis on networking and collaborating with other initiatives already interacting with users and addressing their needs

These partnerships are crucial for the **shared goal of making Europe more competitive**

In practice, within the EU ecosystem:

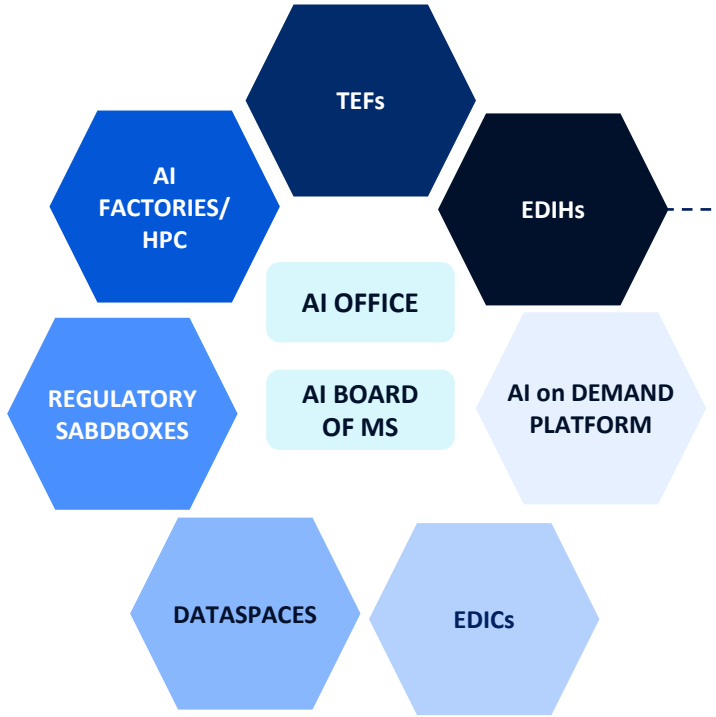
EDIHs & TEFs

1. EDIHs play a key role in disseminating the TEFs' service portfolio and outreach activities
2. EDIHs benefit from TEFs as they offer additional support and infrastructure, enabling scale-up of AI solutions

AI Fs & TEFs

3. AI Factory provide the necessary resources and expertise to scale up the capabilities of TEFs
4. TEFs can then support to testing said solutions and bringing them closer to the market

The EU has set a strong ecosystem for **innovation in trustworthy AI**



A **seamless pathway** for European **innovation to reach the market**.
