Network overview: 1 member – 1 EDIH

3 Technologies

Covers a spectrum of key technologies, with special focus on high-performance computing and cybersecurity to make L-DIH a thriving agent on both areas.

Strong commitment to cutting-edge digital solutions based on artificial intelligence and decision support, while reinforcing cybersecurity measures.

Services

Offers ecosystem building, field trials, finance, innovation management, SME support, and vocational training, highlighting their dedication to fostering innovation, business development, and skill enhancement within the ecosystem.

Eighteen new digital transformation services carefully designed to integrate L-DIH in the country's tech ecosystem and bridging it with EU-wide digital initiatives.
